

PRODUCT SPECIFICATION / NVIDIA

# NVIDIA DGX B200

DGX B200 · 4 TB reseller configuration

An integrated eight-GPU Blackwell training system with the referenced 4 TB memory configuration.

|                   |               |             |         |
|-------------------|---------------|-------------|---------|
| GPU configuration | System memory | Form factor | Cooling |
| 8 × B200          | 4 TB          | 10U         | Air     |

|               |                                                                           |
|---------------|---------------------------------------------------------------------------|
| GPU platform  | 8 × NVIDIA B200, 180 GB per GPU                                           |
| CPU           | 2 × Intel Xeon Platinum 8570                                              |
| System memory | 4 TB                                                                      |
| Form factor   | 10U rackmount                                                             |
| Cooling       | Air cooled; OEM fan and GPU enablement requirements apply                 |
| Storage       | Installed enterprise boot and data SSDs selected in the quotation         |
| Networking    | Installed network interfaces and external fabric defined in the quotation |

|                                                      |                                                                                                                                                                                                                                                                                                                                                                                                                                |
|------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Public supplier starting price · USD                 | The quotation confirms the exact equipped configuration, support and delivery. CPU, installed RAM, enterprise boot/data SSDs, network adapters, power supplies and required OEM GPU components are included in the final bill of materials. Broadberry US public starting price for its 4 TB RAM configuration, checked October 14, 2026. NVIDIA standard memory is 2 TB; this price applies to the referenced reseller build. |
| <div>\$562,154</div> <div>Confirm availability</div> |                                                                                                                                                                                                                                                                                                                                                                                                                                |
